

Dear Ladies and Gentlemen,

I am 55 years old, flexible and have professional qualifications in the network area of computers, satellites, radio, machine equipment, automation systems (gates, robots), video surveillance systems, security systems, video and audio, optics and DSL Internet – including the development of appropriate software and hardware.

More professional studies and internships such as economist-accountant make the result of a job completely assured in the future.

My main tasks include design and support of complex ones:

Computer systems – planning, construction, design, development, back-up;

Network – installation and configuration of network devices, routing, switching, firewalling, VPN, WLAN, WAN/LAN, VoIP, AT&DT, security systems, virtualization, remote control;

Programming possibility – in Computer Programs and Hardware Options (EPROM or EEPROM Programs, Microcontrollers, S7 Siemens) - under Borland C, C++, C#, Assembler, Turbo-Pascal, Python, Pascal, Fortran, Java-Script, Basic, Visual Basic, dBase, SQL, CSS, PHP, HTML (incl. Meta Tags & SEO);

Electronics/Electrical Engineering – planning, construction, design, development, back-up (also in 5 other languages) of different Electrical/Electronic boxes (AV/DC) and products;

Technology – software analysis - test, examination (very good MSR), error search, optimization and adaptation, including design and repair of hardware & software products (for example different sensors IR, CLIR...), use different devices (measuring instruments, testers, oscilloscope, microscope), quality control according to (DIN, UART), soldering;

Repairs – more years of experience such as "full computer and device service" all types – currents (AV/DC incl. insurance, lifesavers, relays), adapters, computers, servers, workstations, modems, routers, switchers, pushers, networks and AV/TV cables, amplifiers, SAT & SAT receivers, LNB's, decoders, TV, cars, other EI. components, devices and boxes;

Team and client communication possibility in more language than German – English, Italian, Russian, Ukrainian, Polish, Serbian, Macedonian, Bulgarian (all Excellent read & write);

Driving license up to 7.5t – Equivalent to CE1, +A, +T and ADR
Customer oriented and "problem solving" – situation analysis, even in the most difficult moments.

Quality assurance, "Open Mind" and always open to the latest technology to further develop.

If you need further information, please do not hesitate to contact me.

I would be very happy about an invitation to a personal conversation.

Sincerely,

Eng.PS. Kostadin Krastev

In extreme weather.

04/1996 – 10/1998

Cable TV "Super-Max" - Sofia, Bulgaria:

Technical Director

Responsible for the quality signal from studio to customer, private video channels and latest satellite television

- SAT dish, coding & signal decoding, installation and management of amplifiers, highway cables, mounting of special plate and components

Special knowledge

Science:

Development of specific electronic elements with computer or Manual;

- Including soldering of SMD, THT or other technology
- Self-employed or according to plan
- Assembling of different elements into different assemblies
- Tests and quality control according to standard DIN, UART or other

Information technology:

Routing, Switching, WLAN, Firewalling, Security, VPN, WAN/LAN, VoIP, AT&DT; EDV (incl. ~all Microsoft Products e.g. Mailing Programs and Text MS -Outlook & another s, Word, Lotus..., Excel, PowerPoint...) – **very good**;

Linux, Ubuntu (Xubuntu, Kubuntu..) – **good**;

Windows XP, Server 2000, Vista, 7,8, 10... – **very good**;

Server- und Desktop- Hardware, Microcontrollers, „Blackbox“,

Programm Languages:

Basic, Visual Basic, Turbo-Pascal, Pascal, FORTRAN, Python,

Java-Script, d-BASE, SQL, HTML (incl. META-Tags, CSS, PHP) – **very good**;

Borland C, Assembler (8 Bit) – **very good**;

C++, C# - **good**;

CAP Modules – **good**;

Special Programs:

“Turbo-Tutor”, “Dragon”, “Proteus Engineering Maestro”. “SIM-Link”

„ScanMaster-ELM“, „TouchScan“ „OBD“, „DBIII“ - andere Software mit SAE, CAN -ISO Protocols, CAD

Languages:

German – **good**;

Italian – **very good**;

English – **very good**;

Polish – **very good**;

Serbian – **very good**;

Russian – **very good**;

Bulgarian – **Mother tongue**

Interest & Hobbies:

IT programming, nanotechnology, robotics, video security, 'Tai Chi Chuan', Mountain biking (trekking, climbing), beach volleyball, swimming, surfing...
